

Worth it!

Ok folks so it was worth the wait. We saw Patrice Baumel and Lee Curtis and they rocked it. The rooftop was amazing there was a clear view of miami beach and pumping sounds it was quite the sunset. Then we headed downtown the Resolute party was going off Guy Gerber really rocked it live stylee, while Derek Plaslaiko tore it up in the other room, the we hoofed down the Karu & Y and watching the MINUS magic happened my man Troy Pierce was in full swing, but we where on fumes so we decided to head back, but not before seeing Sam from Ghostly, who told us there will be some new audion material tomorrow night! So Spectral Losing it and the AM Only party, we've got a full night ahead of us tomorrow!
